## NRS FLANGED CAST IRON GATE VALVE

## T-301

Non-rising stem design is ideal for confined installations
Class 125/150 flange-type end connections
IBBM design: Iron-body-bronze-mount, with bronze seat and wedge sealing rings
Solid wedge assures a positive drip-tight closure
Durable cast iron construction resists pipeline stresses and distortion
All external surfaces are primed and dual-coat painted for corrosion resistance Full-flow waterways minimize pressure drop
Available sizes: 2" to 12"
Working Pressure, Non-Shock (PSI)
Cold working pressure (CWP): 200 psi
Saturated steam (WSP): $\quad 125$ psi to $450^{\circ} \mathrm{F}$

| MATERIAL SPECIFICATION <br>  <br>  <br> PART |  | MATERIAL |  |
| :--- | :--- | :--- | :--- |
| 1 | Handwheel bolt | Carbon steel | SPECIFICATION |
| 2 | Handwheel | Ductile iron | ASTM A536 Grade A |
| 3 | Stud nut | Carbon steel | ASTM A563 Grade B |
| 4 | Stuffing box stud | Carbon steel | ASTM A307 Grade B |
| 5 | Gland follower | Ductile iron | ASTM A536 |
| 6 | Stud retainer nut | Carbon steel | ASTM A563 Grade B |
| 7 | Stem packing | Asbestos-free graphite | Commercial grade |
| 8 | Stuffing box | Ductile iron | ASTM A536 |
| 9 | Box-to-bonnet gasket | PTFE | DuPont Teflon* |
| 10 | Bonnet | Cast iron | ASTM A126 Class B |
| 11 | Stem locknut | Forged brass | ASTM B16 |
| 12 | Stem | Forged brass | ASTM B16 |
| 13 | Body/bonnet bolt | Carbon steel | ASTM A307 Grade B |
| 14 | Gasket | Reinforced graphite | Commercial grade |
| 15 | Nut | Carbon steel | ASTM A563 Grade B |
| 16 | Disc-wedge | Ductile iron | ASTM A536 |
| 17 | Seat ring | Bronze | ASTM B148 |
| 18 Wedge face ring | Bronze | ASTM B148 |  |
| 19 | Body | Cast iron | ASTM A126 Class B |

## DIMENSIONS

| Size | A (ANSI/ASME B16.10) | B | C | D (NPS) |
| :--- | :---: | :---: | :---: | :---: |
| $2^{\prime \prime}$ | 7.01 | 10.79 | 7.87 | 1.97 |
| $2-1 / 2^{\prime \prime}$ | 7.48 | 11.93 | 7.87 | 2.56 |
| $3^{\prime \prime}$ | 7.99 | 13.03 | 9.84 | 3.15 |
| $4^{\prime \prime}$ | 9.02 | 14.49 | 11.02 | 3.94 |
| 5 " | 10.00 | 16.38 | 12.60 | 4.92 |
| $66^{\prime \prime}$ | 10.51 | 17.99 | 12.60 | 5.91 |
| $88^{\prime \prime}$ | 11.50 | 21.65 | 13.78 | 7.87 |
| $10^{\prime \prime}$ | 12.99 | 24.88 | 15.75 | 9.84 |
| $12^{\prime \prime}$ | 14.02 | 27.99 | 17.72 | 11.81 |

- In accordance with interchangeability requirements, face-to-face dimensions conform to ANSI/ASME B16.10
- Flanged end connections conform to ANSI/ASME B16.1 Class 125/150
- Conforms to MSS SP-70
- Manufactured in an ISO-9002 accredited facility

| Class $125 / 150$ <br> Nominal <br> size <br> flange data <br> Bolt circle <br> diameter | Bolt size | Number of <br> bolt holes | Flange <br> diameter |  |
